Aer-O-Matic

Aer-O-Matic stops odors and overflow of air conditioning condensation pans.

- Controls the accumulation of air-borne dust
- Helps prevent corrosion
- Prevents solid blockage
- Keeps condensate pans clean of scum, sludge, and silt

Aer-O-Matic Packaging

Part #AC-299	100 strips per case
Part #AC-299-5	50 strips per case

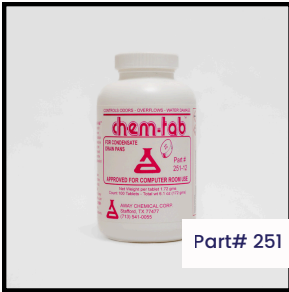

How it works:

Place one Aer-O-Matic Air Conditioning Treatment Strip directly into the drain pan, as far from the drain hole as possible. The condensate water will moisten the strip and release the chemical into the pan. Pictured above is a visual way the strips should be placed.

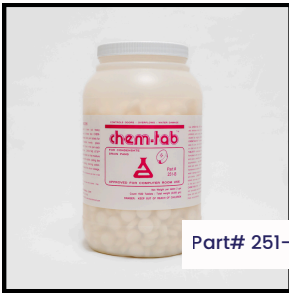

Aer-O-Matic Air Conditioning Treatment Strips start working immediately for up to 120 days.

Aer-O-Matic Air Conditioning Treatment Strips are a highly effective, surface-active agent that disperses solids, thereby cleaning all surfaces and keeping them free of accumulated debris. It is safe for all component materials in the equipment and its piping.

Chem-Tab

Part# 251

Part# 251-B

Part #251-6

Chem-Tab is a safe, pre-measured tablet that keeps drain pans clean for up to 4-6 weeks.

- Plates pan for a positive, prolonged cleaning action
- Starts working immediately
- Controls the growth of germs, fungi, bacteria, slime, and black algae
- Disperses solids down the drain
- Opens clogged drain lines
- Stops overflowing drain pans
- Eliminates unpleasant odors
- No chlorine or other noxious toxic fumes

Used in:

- Air conditioners
- Fan coils
- Refrigerators
- Vending machines
- Humidifiers

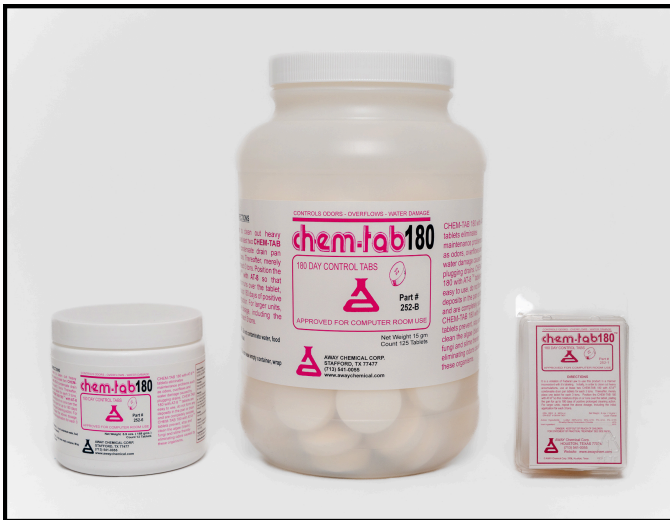

Chem-Tab Packaging

Part #251-6	48 tablet clamshell, 6 clamshells per case
Part #251-12	100 tablet jar, 12 jars per case
Part #251-B	1500 tablet jar, 1 jar per case

Chem-Tab 180

The original pre-measured tablet treatment for air conditioner condensate pans and drain lines.

- Safe and easy to use
- Prevents build-up and blockage
- Cleans slime, scum and other accumulations in condensate pans and drain lines
- Eliminates stale odors and overflow

Use one Chem-Tab 180 tablet per 3 ton
Repeat treatment every 6 months

Chem-Tab 180 Packaging

Part #252-1	1 tablet clamshell, 24 clamshells per case
Part #252-6	12 tablet jar, 6 jars per case
Part #252-B	125 tablet jar, 1 jar per case

Clogg-Away

Fastest acting compound on the market today to treat air conditioner condensate pans and lines.

- Fast, easy to use, and completely soluble
- Plates the pan with "Invisio-guard" for a positive prolonged cleaning action
- Prevents slime, scum, and odor.
- Does not form deposits in the pan or drain line

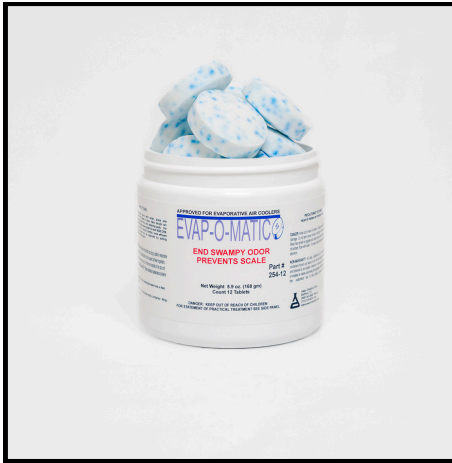

Use one Clogg-Away tablet per 5 ton
Repeat treatment every 3 months

Clogg-Away Packaging

Part #290-12	12 tablet jar, 12 jars per case
Part #290-B	125 tablet jar, 1 jar per case

Evap-O-Matic

Simple and effective solution for eliminating swampy odors commonly associated with evaporative cooling systems.

These long-lasting tablets help maintain a cleaner, fresher environment with minimal effort.

Use one Evap-O-Matic tablet per 5300 CFM
Repeat treatment every 3 months

Evap-O-Matic Packaging

Listo-Tab

Floor drain protection tablet

Used in:

Hospitals
Food Preparation Areas
Food Processing Plants
Schools
Nursing Homes
Restaurants

Size:

48 grams
2 1/2" Diameter

Listo-Tab provides a continuous, metered cleaning action when activated by water in the floor drain.

Prevents build up of scum, sludge, and other accumulations in the drain lines.

Use one Listo-Tab tablet per floor drain
Repeat treatment every 4-6 weeks

Listo-Tab Packaging

Part #230-24

24 tablets per case

Pan-Bar Gold

Air conditioning and refrigeration condensate pan treatment system

Pan-Bar Gold Packaging

Part #PB-015	1 1/2 ton	12 strips per case
Part #PB-025	2 1/2 ton	12 strips per case
Part #PB-05	5 ton	12 strips per case
Part #PB-10	10 ton	12 strips per case
Part #PB-20	20 ton	2 strips per case
Part #PB-50	50 ton	1 strip per case

How it works:

Pan Bar Gold is an EPA registered product that is activated by water. It features a unique entrapment system that stays in place and does not shrink or melt over time. Pan Bar Gold is formulated to release a shock dose in the first 48 hours of treatment. It will then begin a slow release for the remainder of the 6 months of treatment.

Directions:

Install the proper size Pan Bar Gold strip in the drain pan between the evaporator coil and the drain pan opening. Place the strip in the stream of water flowing from the coil to the drain pan fitting.

Pan-Clear

Pan-Clear is a powerful cleaning detergent that immediately breaks up sludge, slime, and most other accumulations in condensate drain pans and lines.

- Prevents overflow and potential water damage
- Completely soluble and does not form deposits in the pan or drain lines
- Safe and easy to use

4-6 week protection
Treats up to 2 tons

Used in:

- Air conditioners
- Fan coils
- Refrigerators
- Vending machines
- Humidifiers

Pan-Clear Packaging

Part #261-6	48 tablet clamshell, 6 clamshells per case
Part #261-12	100 tablet jar, 12 jars per case
Part #261-B	1,500 tablet jar, 1 jar per case

Pan-Gel

Pan-Gel offers a unique approach to drain pan treatment with its gel-locking technology.

- Activated by water
- Locks into place
- Long-lasting and continuous release
- Prevents sludge and accumulations
- Eliminates odors

Use one Pan-Gel tablet per desired unit size
Repeat treatment every 6 months

Pan-Gel up to 5 Ton Packaging

Part #UT-3-1 1 tablet clamshell, 24 clamshells per case
Part #UT-3-6 6 tablet tube, 12 tubes per case
Part #UT-3-B 144 tablet box, 1 box per case

Pan-Gel up to 7 Ton Packaging

Part #UT-7-1 1 tablet clamshell, 24 clamshells per case
Part #UT-7-6 6 tablet tube, 12 tubes per case
Part #UT-7-B 108 tablet box, 1 box per case

Pan-Gel up to 15 Ton Packaging

Part #UT-15-1 1 tablet clamshell, 24 clamshells per case
Part #UT-15-3 3 tablet jar, 12 jars per case
Part #UT-15-B 144 tablet box, 1 box per case

Pan-Gel Jr.

Part #UTJ-1.5
Up to 1 1/2 ton

Part #UTJ-3
Up to 3 ton

Part #UTJ-5
Up to 5 ton

Pan-Gel Jr. is a long lasting drain protection tablet that locks into place for a metered, continuous release.

Pan-Gel Jr. eliminates odor and overflow caused by plugged condensate drain pans.

Use one Pan-Gel Jr. tablet per desired unit size
Repeat treatment every 90 days

Pan-Gel Jr. Packaging

Part #UTJ-1.5	36 tablet clamshell, 6 clamshells per case
Part #UTJ-3	18 tablet clamshell, 6 clamshells per case
Part #UTJ-5	12 tablet clamshell, 6 clamshells per case

Value-Tab

Value-Tab is a cleaning surfactant that immediately breaks up sludge and other accumulations.

- Eliminates and prevents odors
- Completely soluble
- Does not form deposits in the pan and drain lines

Easy to Use • Safe • Non-Toxic • Non-Corrosive

Use one Value-Tab tablet to treat up to 1 ton
Repeat treatment every 4-6 weeks

Value-Tab Packaging

Part #271-6	48 tablet clamshell, 6 clamshells per case
Part #271-12	140 tablet jar, 12 jars per case
Part #271-B	1680 tablet jar, 1 jar per case

Away Chemical Corp.

Family-owned and operated since 1968, Away Chemical Corp. is the trusted name in safe, non-toxic, and non-corrosive air conditioning condensate pan treatments.

Our innovative products have transformed the way HVAC professionals maintain condensate pans — eliminating the need to disassemble units for cleaning.

Key Products Include:

Chem-Tab:

These slow-dissolving tablets coat drain pans and lines with our exclusive Inviso-Guard formula, keeping them clean and clear for up to 6 months. By preventing sludge, scum, and buildup, they eliminate drain clogs and stop damaging overflows that can ruin ceilings, walls, furniture, and more.

Pan-Gel:

Designed to lock in place, these color-coded tablets are easy to apply and are safe for use on steel, galvanized, fiberglass, and painted surfaces. They provide long-lasting protection without releasing chlorine or foul odors.

Evap-O-Matic:

Ideal for evaporative coolers, these tablets eliminate swampy odors, improve pad water retention, and help extend the life of motors and components by keeping internal systems cleaner.

Why Choose Away Chemical?

- ✓ Proven performance since 1968
- ✓ Safe for all common HVAC materials
- ✓ No fumes or toxic byproducts
- ✓ Custom formulations available for larger units or longer protection
- ✓ Private label program available

Protect your HVAC systems with confidence.
